

## *Sauna, Spa & Relax*

There is a rare tranquility down by the water- here lies our sauna house with a relaxation room and a delightful outdoor spa.

It's almost a magical experience regardless of the season and weather - even when the ice has formed, you can take a refreshing dip in the sea. We always ensure there's an opening in the ice for the brave ones to jump into.

In the relaxation area, there is a music system with Bluetooth, comfortable chairs, and a refrigerator stocked with various types of beer, cider, wine, and bubbly. Of course, we also have non-alcoholic beverages.

Our delicious charcuterie platter, prepared by our chefs, is included in the price and is always appreciated with the sauna beer.
