

Battle of the chefs

Cook with the chefs from Restaurant Loén

How does it work?

The "Battle of the Chefs" cooking activity is a team exercise.

- The group is split into teams, up to 14 participants total.
- For 12 participants, there are 4 teams of 3.
- The activity takes between 1 and 1.5 hours.
- In larger groups, one half can start with the sauna or spa while the other competes in the "Battle of the Chefs."

Ingredient Basket

Each team gets an ingredient basket to create their dish.

- Each team chooses a starter or main course.
- Each ingredient basket contains 2-3 unique ingredients that must be used, while the rest are optional.
- Teams can consult the chef three times for guidance and advice.

Winners

The cooking is timed for 45 minutes. The chef will give time updates and a countdown. Teams must finish on time or be disqualified. When time is up, the chef rings the bell and the winning team is announced.

- Two plates must be prepared and presented to the chef and host, who will taste all the dishes.
- The main criteria is the taste.
- It will also be checked that the unique ingredients have been used.
- Presentation will also be judged.
- The winning team members will receive a gift card from Loén, which they can use for private dinners.
